

Triad Automation Group, Inc.

www.triadautomationgroup.com

Triad Automation Group, Inc. is proud to distribute:

Complete line of automation products. Sensors, switches, power supplies, relays (electromechanical & solid-state), motor controls, safety products.

Manual and electric screw-jacks and actuators.

Gefran SIEI is a division of the Worldwide Gefran Group. From top-quality AC and DC drives and motors to dependable soft starters and feedback devices, you'll find it all at Gefran SIEI.

Leading provider of absolute and incremental encoders, length measuring and feedback systems.

Precision motion control. Inline gearheads, right-angle gearheads, offset gearmotors, custom gearheads, precision components

AC variable frequency inverter drives.

Manufacturer of terminal blocks (DIN rail and PC board mount), cord grips, enclosure systems, terminal strips, ferrules, etc.

Metal Work Pneumatic is a leader in the manufacture and distribution of pneumatic components. Products include: ISO cylinders, Rodless and Rotary cylinders, Filter / Regulators, Control Valves, Fittings.

Leading manufacturer of automation components such as power supplies, EMF filters, signal processing modules, distributed I/O products, cables and connectors.

Engineered illumination. LED's, light pipes, LED mounts and holders, indicator assemblies. Custom designs in quantity.

Triad Automation Group, Inc.

Advanced controls and drives. NEMA 4X washdown AC sensorless vector VFD drives.

Industrial connectors, automation and network solutions.

DIN style valve connectors, proportional valve control, timers and relay blocks.

Contactors, relays, terminal blocks, fans, transformers, DIN rail, cable ties.

Valley Industries is a company developed to provide the highest quality fluid components at the most competitive price to most industries. Products include: Pressure gauges, Ball valves, Plastic and brass fittings, pressure spraying equipment.

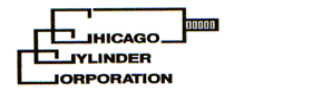

Steel and Brass fittings for hydraulics and pneumatics. Quick disconnect couplings.

Small and medium process style valves (brass and polymer). Steam valves.

Standard and custom cylinders, hand pumps, valves, motion control and specialty products.

Cost effective pneumatic NFPA cylinders. Round body "Bimba" style cylinders. Air tanks.

Hydraulic and pneumatic seals. O-rings, packing, specialty products. Aftermarket seal repair. OEM seal replacements.

Anti-fatigue orthopedic mats for industrial, salon, healthcare, and hospitality applications.

For all your battery needs. PLC, Military, Board Mounted Lithium Ion, NICAD, Cellular, Barcode Scanning, Emergency Lighting, etc.
